HOME STORIES

By **Passe®
Partout**

Dear reader,
Even though we have been publishing our coffee table book year after year for several years now, we always do this with a great deal of enthusiasm, we are very curious about what the final product will look like and we remain extremely proud of the book, which is the result of teamwork and our love for interiors.

With this book we want to take you into our story. A story of how we see life inside your home, but also how you can enjoy life through good food, drinks, architecture, sports, travel and culture. We are very proud to be a part of your lifestyle, of your way of living, of your home. And remember, a home is where a Passe Partout is, for which we are very grateful.

I hope you enjoy this book as much as we did making it. Team Passe Partout wishes you a lot of pleasure viewing and reading this, and remember: enjoy life, enjoy this book, enjoy Passe Partout!

Dirk Steenbeke
CEO Passe Partout

*There are friends. There is family.
And then there are friends
that become family.*

MOODS 2022

Adventure awaits

It is about organic forms, about nature and about sources of inspiration. And where better than on holiday, among other cultures and in other countries, to find your newest ideas? Exploring and then taking something home... An idea, a shape, a material or a structure. It doesn't matter. Inspiration enough. You take care of the fill-in.

Simplicity rules

Balance is what we are looking for. In our life, in our work, in our relationship. Balance brings us peace. To create this warm and pleasant feeling, soft materials, neutral colours and nature-inspired objects are exactly what we need. Let the latest fabrics inspire you and go 100% for pure simplicity.

Awesome outdoor

Outside, things can be more and more original. Our garden is meant to be an eye-catcher. We invite our friends over for a drink. Or we enjoy a real wellness garden ourselves.

Floris van Bommel

Shoe factory van Bommel has been making luxury men's and women's shoes since 1734. Creative director Floris van Bommel is the 9th generation of shoe makers in the Van Bommel family. In addition to the fashionable Floris van Bommel brand, Schoenfabriek van Bommel also owns the centuries-old classic men's brand 'Van Bommel'.

©Floris van Bommel

Founded in 1734! Today there are few family businesses that can claim such a long history. And which one? The company proudly shares an extended report of almost 300 years of family pride, and there are a few things that are worth mentioning. For example, the company's roots do not lay in family entrepreneurial blood or in a passion for shoemaking. In all likelihood, it was the young skipper's son Reynier Van Bommel who followed his love from his birthplace of Dongen to Breda. There he applied for the citizenship of the city, which allowed him to become a member of the trade guild. After all, the trade guild had a monopoly on granting permission to practise professions. Nice story, or how love can be the origin of an immense family business.

Another very striking fact is something that we are now seeing again in our society. In the 19th century, it was impossible to imagine the shoemaking industry without homeworkers. As a result of the Franco-German war, the demand for military footwear was enormous. The company therefore worked partly with shoemakers in the workplace and partly with home workers. Before 1900, shoes were made entirely manually, at home or in the workplace. From 1900 onwards, this changed as mechanisation began to take its course. The profession of home shoemaker changed in the sense that only semi-finished products were manufactured at home.

Family van Bommel during the first world war.

Throughout the years Van Bommel as a company has known many difficulties, setbacks and troubles. It is mainly the enormous determination of many generations in a row that has made today's Van Bommel a company that people look up to and admire. Without sketching a true timeline, we can mention a number of awful crises. There is the start of mechanisation: the beginning of completely unknown territory. During the years of the First World War, exports dropped sharply and, due to a governmental regulation, standard shoes had to be made at maximum prices, which put a damper on Van Bommel's vision of producing quality footwear. Around 1930, a terrible crisis followed and the company reached a very critical stage. These problems were barely overcome when the Second World War broke out. Already in June 1940, shoes sales went 'into a legal voucher system' only. The production of woven women's shoes was able to limit the damage to some extent during that period. In the post-war years, the factory was running at full capacity when a major fire destroyed the entire factory. However, the management didn't stop there. Together with staff and employees, they started rebuilding a brand new factory.

"Better no shoes than less quality", remained the motto of the Van Bommel family. The reputation they had acquired had to be maintained at all costs. Only with this vision the company survived and today they are still deservedly proud of it. Southern countries such as Italy, but also Asian countries, are flooding the market with cheap footwear, but Van Bommel will not be discouraged. The demand for Van Bommel shoes has now risen to such an extent that it can hardly be met. Delivery times of up to 9 months occur. The popularity increases especially among the so-called yuppies (young urban professionals) and the dinkies (double income/no kids).

GO

The Antwerp ZOO is one of the oldest and most famous zoos in Europe. Since 1843 it has been a place where young and old enjoy the animals, nature and the beautiful historical buildings together. The zoo's garden and the characteristic buildings are also protected as monuments. When it was founded in 1843, the ZOO was located just outside the city walls. Now the zoo is an oasis of peace in the heart of the city, just next to Antwerp's monumental Central Station.

The historical entrance does not only provide a romantic start to a visit to the Antwerp ZOO.

It is also the pink flamingos who have been welcoming all guests at the entrance since 1902. The young gorillas warm the hearts of young and old. The viewpoint on the Savannah offers a unique view of the buffaloes, giraffes and

zebras. The lion pride with up to three playful lion cubs competes with the caprioles of the little ones in the nearby playground. 950 animal types and more than 5,000 animals create a particularly lively atmosphere in a unique historical setting.

WALKING BETWEEN THE CHIMPANZEES AND GORILLAS

In the great apes valley, you can walk between the chimpanzees and gorillas. This gives you a very special perspective. You will have a fascinating view of the caprices of the great apes from the front row. Climbing platforms and natural rocks provide a lot of fun for Matadi and his wives. They walk from the indoor quarters via an underground passage to their spacious outdoor area, enjoying the grass under their feet and the wind on their skin.

INTERNATIONAL REPUTATION

The collaboration of ZOO Antwerpen in breeding programmes for endangered animals has led to a significant international reputation. This is the case, for example, with the bonobo and the okapi. The okapis were also given a heated greenhouse so that they can be seen by visitors every day.

©ZOO Antwerpen-Jonas Verhulst

THE SPECTACULAR REEF AQUARIUM

One of Europe's largest reef aquariums is the pride of Antwerp ZOO. Corals and fish show all their splendour, while the fragile balance is carefully maintained by 5 permanent divers and 14 additional care workers.

The bow and huge size of the window gives the visitor the illusion of really standing among the fish and corals. Thus, young and old enjoy an admirable underwater world. Regular divers complete the experience by diving into the reef aquarium four times a week to feed the fish and clean the windows.

©ZOO Antwerpen-Jonas Verhulst

©ZOO Antwerpen-Jonas Verhulst

A TRUE SKYWALK

The completely renovated entrance area of the Antwerp ZOO offers a panoramic view of the historical garden. The impressive walkway has a total length of 225 metres and is located at a height of 6 metres. The double loop that forms the path is entirely designed in glass. On top of the roof, there are two large pools with various plants and moving water features.

©ZOO Antwerpen-Jonas Verhulst

ROMANTIC BUTTERFLY GARDEN

Every year from March to October, the winter garden welcomes the fragile elegance of many hundreds of tropical butterflies and becomes a 'butterfly garden'. These colourful insects provide a moving spectacle in a historic setting. Wonderful!

CARLA

WOUT VAN AERT

Already a legend and Belgian pride

Cyclocross and road cycling. Surprised? You bet. Wout made his breakthrough at the age of 20 as a cyclo-cross rider at the highest level and quickly made it to the absolute top. He really surprised everyone. In 2016, 2017 and 2018 he became Belgian champion and world champion three times in a row. Meanwhile, Van Aert was not averse to a bit of asphalt. He competed in several road races. From 2019 onwards he took titles as a road cyclist, and not the smallest ones. He won the classics Milan-San Remo, Strade Bianche, Amstel Gold Race, Gent-Wevelgem, E3 Harelbeke and Omloop Het Nieuwsblad. He is also proud of his many stage victories in the Tour de France.

Van Aert was born in Herentals (B) on 15 September 1994. As a child the little Wout was already in love with his bike. Since he was eight years old, his two-wheeler was the love of his life. As any Fleming can confirm, Wout is not averse to a little mud. He has the 'spirit' and also the legs of a winner!

Since March 2019, van Aert has been riding for Team Jumbo-Visma. He quickly became Belgian time trial champion. And in the Tour de France he also managed to win more than one stage victory immediately. An unfortunate fall in the Tour was the start of a rehabilitation period which, thanks to his powers

of determination, proved to be very successful, because the following year he made a tremendous comeback. He won the famous Strade Bianche and took gold in Milan-San Remo and at the Belgian championship time trial. Two stage wins in the Tour de France and several silver medals could be counted as continuation of his more than successful career.

In the cyclocross he immediately went for it again. And how? Two gold medals and six podium places literally put him on a pedestal. In Flanders and far beyond Wout is praised for his phenomenal performances. In 2021 he became Belgian cyclocross champion for the fourth time. And the following cyclocross season he won eight out of nine stages.

*“Standing still is
going backwards”*

Wout van Aert

SPORTSMAN OF THE YEAR

Since 1967, the title of "Sportsman of the Year" is awarded to the Belgian athlete who ends up as the winner of a referendum, organised by the Belgian Professional Federation of Sports Journalists. Wout van Aerts has won this trophy in 2020 and in 2021. We are already very curious about the 2022 cycling season.

MONT VENTOUX, A LEGENDARY VICTORY

On 7th July 2021 everything was working out for Wout van Aert. During the Tour de France he won the extremely tough 11th stage with a double climb of the Mont Ventoux.

The mountain in the south of France, also known as the 'Giant of Provence', is especially known for the gruelling climb that is often included in cycling competitions. The length of the climb is 21.4 km and the average gradient 7.5%. Add to that the bare lunar landscape and the summery temperatures in the south of France, and it is immediately clear that this is not for the weak. For Wout, the memory of this day is and will remain fantastic, although there are of course many beautiful victory moments to be mentioned.

KOL

MUSSELS FROM ZEELAND

The mussel is the most important product from Dutch shellfish farming. With its own mussel auction and processing of around 90 million kilos of mussels per year - over 50 million of which come from Dutch waters - Yerseke in Zeeland is the centre of the mussel in Northwest Europe. Most of the mussels that come from Yerseke are sold as fresh mussels. Belgium and France are the largest markets. Consumption in the Netherlands is around 10 million kg per year.

It is remarkable that the Belgian population consumes mussels more often than the Dutch. On average, mussels are on the menu once a year in the Netherlands, but five times a year in Belgium. And that appears to be a good choice, knowing that mussels fit perfectly into a healthy diet. After all, mussels are surprisingly rich in omega-3 fatty acids, and they are a source of minerals and vitamins A, B2, B12 and E.

9 MONTHS OF ZEELAND MUSSELS

The season for Zeeland bottom cultivated mussels usually starts in early July with the new harvest. The exact starting date of the season depends on the supply and quality of the mussels, which in turn depends on the weather in the spring. In June, the mussels regain their strength after the reproduction period of April-May. The season for Zeeland mussels continues until April of the following year. In the case of the cultivated mussels, the process of recovery from reproduction is slightly faster, so that they are often 'ripe' for consumption in early June.

THE WADDEN SEA AND THE OOSTERSCHELDE

Fishing mussels has been taking place in Dutch waters for over 150 years. The two cultivation areas are the Oosterschelde and the Wadden Sea, together about 6,000 hectares in size.

The Wadden Sea has the most mussel beds and is also the most suitable for cultivation due to the strong influence of ebb and flow and therefore the higher supply of food for the mussels. However, the yield of the Wadden Sea is less constant due to the dynamic characteristics of the area. Storms and eating by crabs and starfish can seriously damage the quantities in the Wadden Sea, and mussels can perish in heavy storms. Due to the storm defense in the Oosterschelde, these conditions have stabilized considerably, which benefits a predictable yield.

Mussels 'natural way'

the recipe for 4 people

INGREDIENTS:

- 4 kg fresh mussels
- 2 strings of green celery (with leaves)
- 2 onions
- butter
- Pepper and salt

For the mussel sauce:

- 10 tbsp mayonnaise
- 2 tbsp mustard
- 100 ml cooking liquid

PREPARATION

Rinse the mussels twice in cold water. Peel the onion and chop finely, together with the celery and the celery leaves. Put a large pot or mussel pot on the fire and stew the celery and onion in butter. Add the mussels and season with salt and pepper. Cover the pan and leave to steam for 5 minutes. Shake the pan once and let it steam for another 4 minutes, until all the mussels have opened. Mussel sauce: mix the mayonnaise with the mustard and the cooking liquid from the mussels. Serve the mussels immediately, with Belgian fries and the mussel sauce.

NO HOME STORIES WITHOUT HOME PLANTS

Houseplants, they are hip and trendy, and give you an energy boost when you need it. When you see a beautiful green composition in a hotel lobby, restaurant or on a trip abroad, you often wonder which plants they are and why they have chosen to put them there?

Well, plants are also following more and more the waves of the fashion trends. And to help you on your way in the literal 'jungle' of green, we would like to give a few tips for the most fashionable interiors.

BIG IS BEAUTIFUL

Huge plants or plants with giant leaves look tropical, and that exuberant rainforest feeling can really give an interior a boost of energy. So it doesn't have to be in your entire house, but such a tropical plant corner can really be an eye-catcher in your home. Here, we think first of all of the *Strelitzia* with its 'bird of paradise'. The *Alocasia*, too, can be a lively addition to your green oasis.

HANGING PLANTS

They are often forgotten or considered inferior, but nothing could be less true. Hanging plants are totally hip. In the 'urban jungle' trend of 2022, it is impossible to imagine life without them. And if you think you have no room for them? Wrong. There is always a place for a long or short hanging plant. A table, kitchen island or sideboard will do. But also the mantelpiece, windowsill or the top of any cupboard is the ideal place.

YOUNG AND TRENDY

Plants with a coloured vein in the leaf are innovative. Pink or red veins are a nice contrast to the abundance of green. The Peacock plant is a fine example of this. Both small and large variants are an added value in every interior.

TROPICAL ONLY

The classic orchids that we have all received or given as gifts are increasingly making way for brightly coloured, and preferably tropical, varieties. Vibrant colours are hip again. It seems that after the corona era, it is the colourful orchids that are bringing life back into the home.

THE ONLY REAL DEVIL!

Duvel is the story of a proud brewers family. The first generation of Moortgat's began brewing in 1871, and from the very beginning, no concessions were made in terms of quality. As such, Duvel remains true to its origins and traditions, working with completely pure and natural beers, free of any additives or preservatives. Duvel is one of the world's most awarded beers. A true reflection of the passion, vision and independent thinking that remains at the heart of the brewery.

5 facts you must know about 'Duvel'

1. SLOWED BREWED TO PERFECTION

Duvel's first fermentation occurs in tanks, thanks to the original yeast strain (from Scotland) selected by Albert Moortgat in 1918. After this first fermentation, the beer is ready for bottling. Thanks to the addition of extra sugar and yeast, Duvel ferments a second time in the bottle in warm cellars. The beer is then moved to cold cellars, where it continues to mature and stabilise. This extra-long and slow brewing process makes Duvel unparalleled in the beer scene.

2. PERFECT SERVE

1. It all starts with a Duvel that has been kept cool and upright. Otherwise, the yeast at the bottom of the bottle can mix with the beer.
2. The Duvel is ready to drink when it comes out of the fridge optimally cooled at +/- 5°C. Equally important is a clean, dry Duvel glass at room temperature.
3. A beer that has been brewed so intensely and for such a long time should be drunk with respect, so take your time and pour the beer slowly into the glass, tilting it slightly.
4. Avoid contact between bottle and glass and raise the bottle slightly to create a rich head.
5. Leave about 1 cm of beer in the bottle. This contains the yeast and makes your Duvel slightly cloudier and more bitter.
6. For a rich, full foam head, slowly straighten the glass. A foam head will form that ideally starts at the height of the Duvel logo. Do not let the beer foam over, but pour until just below the rim of the glass.
7. Admire and enjoy. To your health!

3. DUVEL'S TULIP GLASS

In the late 1960s, the Duvel glass became the first tulip-shaped beer glass. The glass was engineered specifically to ensure a more complete beer experience and to allow Duvel's flavours and aromas to flourish at their finest. The spherical shape releases the heavenly flavour and aroma of Duvel to full effect. The glass' neck retains Duvel's carbonation, whilst its outward lip delivers the beer to the sweetness receptor of the tongue.

During initial production, this new glass had to be able to take a full 33 cl bottle, which was the first glass of this format, a true innovation at that time.

4. DUVEL'S TORNADO

An engraved D at the bottom of each Duvel glass creates a tornado that is typical to Duvel. It's not an ornament, it is positive for carbonation and enhances head retention and flavour. When pouring a Duvel, a small spiral of bubbles will emerge from the bottom of the glass. This is exactly how the Duvel brewers wanted it: inspiring, relaxing, so as to enjoy unique and intense moments in a confident way.

5. 100% BELGIUM

Duvel is only brewed in Puurs-Sint-Amands (Belgium) where the initial brewery was settled 150 years ago, with the same knowhow and same commitment to quality as back in the time. Whether you are drinking a Duvel in Beijing, in Brussels, New York, Dakar, or Rio De Janeiro, this Duvel has been brewed in the historical and unique Duvel brewery in Belgium.

info@passepartoutnv.be

www.passepartoutnv.be

We always like to make our annual catalogue into a special edition. Just like our furniture collection, this coffee table book is made with a lot of passion and care. Therefore, we would like to thank all the companies who contributed to this or provided text and photographs.

Floris van Bommel, www.florisvanbommel.com

Zoo Antwerpen, www.zooantwerpen.be

Team Jumbo-Visma, www.teamjumbovisma.nl

Jasaco nv, www.jasaco.be

Duvel Moortgat Belgium, www.duvel.com

But we also thank the people behind this book:

Our people in the production in Hungary to develop and produce our products with passion.

Our employees in the office to guide the whole fleet of Passe Partout in the right direction on a daily basis.

Our agents on the road who enthusiastically spread our story and proclaim the Home Stories to many people around the world.

Our stakeholders (customers and suppliers), because without them, this story would not have been possible at all.

Our regular partners (haanslifestyle.com, jasaco.be, sense-company.com) whose products and services strengthen the Passe Partout brand.

A warm thank you to the people who realized and compiled this book, through their dedication and professionalism it has again become a beautiful product.

Our partner Philippe Corthouts for the faith he has in us to develop this story.

My family and my friends who always surround me with unconditional love and friendship.

And finally, I would like to thank you, you who have discovered this book with love.

I hope we led you to the main idea of our philosophy.

Enjoy life

Enjoy your Sofa

Enjoy Passe Partout

Sincerely

Dirk
